

**WORKSHOP ON  
RESEARCH PROBLEM  
FORMULATION**

# Mechanics

1. Participants will be divided into \_\_ groups following the clustering of topics derived thru TOP.
2. Each group will be given ONE HOUR to formulate the research problem for the topic assigned to them.
3. Each group will have 10 MINUTES during the plenary to present their output.

# Objectives

1. To engage the participants in the actual formulation of a research problem given the topic assigned to them.
2. To conceptualize the major concepts used in the research problem by identifying the dimensions, variables & indicators of these concepts.
3. To come up with a variable scheme that represents the variable relationships implied by the research problem.

# Output

TOPIC: \_\_\_\_\_

RESEARCH PROBLEM:

RESEARCH OBJECTIVES:

PURPOSE:

VARIABLE SCHEME:
